

Engineering Open House

Awards Competition Information

To be eligible for awards, this must be the first year that the exhibit has been entered in Awards Competition.

The exhibitor must designate which category his exhibit is to be judged in:

Categories:

- I Exhibits that demonstrate engineering in today's society.
- II Exhibits that represent research in a given field.
- III Exhibits that contribute to EOH theme: "Engineering: Key to Survival."
- IV Exhibits that were built for demonstration only and do not adhere to any of the other categories.

Exhibits in categories I, II, and III will be judged under the following criteria:

1. How well the idea or theme of the display depicts the chosen category.
2. Aesthetic quality of the display.
(Attractiveness, neatness, professional appearance).
3. Ability of the exhibit to convey its theme and ideas to visitors through visual presentation and the use of symbols and posters.
4. Quality of exhibitor's presentation.
5. The judging committee's overall opinion.

Exhibits in category IV will be judged on numbers 2,3,4, and 5 of the above criteria.
